

AB2370 Fixture Replacement Reimbursement Requirements

Fixture Reimbursement Requirements:

- The outlet must have a documented Action Level Exceedance in the State Water Resources Control Board —Division of Drinking Water [Database](#) (≥ 5.5 ppb).
- CCCs must be able to provide receipts for the replacement fixtures and invoices for the installation labor. All documentation must show the balance has been fully paid.
- CCCs must not have access to other local, state, or federal funding sources that would cover the costs of remediation (e.g., fixture replacement) at the CCC. Sources include funding that may be available for those CCCs located on public school property.
- The replacement fixture must meet both lead-leaching and lead-content [requirements](#).
- Fixture must be approved via the Fixture Replacement Verification Form on the [Provider Portal](#).

Additional requirements for labor cost reimbursement:

- Fixture must be installed by an actively licensed plumber that is not an employee of the CCC. Qualified plumbers can be found by following these [instructions](#).
- Labor costs incurred by employees of the CCC who install fixtures are not eligible for reimbursement.

CCCs must also:

- Agree to provide the State Water Board, the California State Auditor, or any authorized representative of the foregoing with safe and suitable access to the CCC facility at all reasonable times during implementation as long as the CCC is operating as a licensed facility.
- Agree to not abandon, substantially discontinue use of, lease, sell, transfer ownership of, or dispose of all or a significant part or portion of the new fixture while operating a licensed facility at the CCC property during the useful life of the fixture.

Conditions:

- If all requirements are met, current funding allows for a maximum reimbursement of \$450 per outlet with an exceedance.
- The cost of filters and filter installation is not reimbursable.
